# Interoperability Matters - Data Usability Workgroup October 29, 2020

### Agenda

- Welcome and Introductions Mariann Yeager (10 minutes)
- Review Workgroup Charter Didi Davis & Co-chairs (20 minutes)
  - https://sequoiaproject.org/interoperability-matters-2/data-usability-workgroup/
- Introduce Carequality/Commonwell Joint Document Content Workgroup Work Joe Lamy (20 minutes)
  - Concise Consolidated CDA: Deploying Encounter Summary and Patient Summary CDA Documents
     Implementation Guide Version 2.0 September 2020 (PDF)

David Camitta, Co-chair CommonSpirit Health

Bill Gregg, Co-chair HCA Healthcare

Mariann Yeager, CEO The Sequoia Project

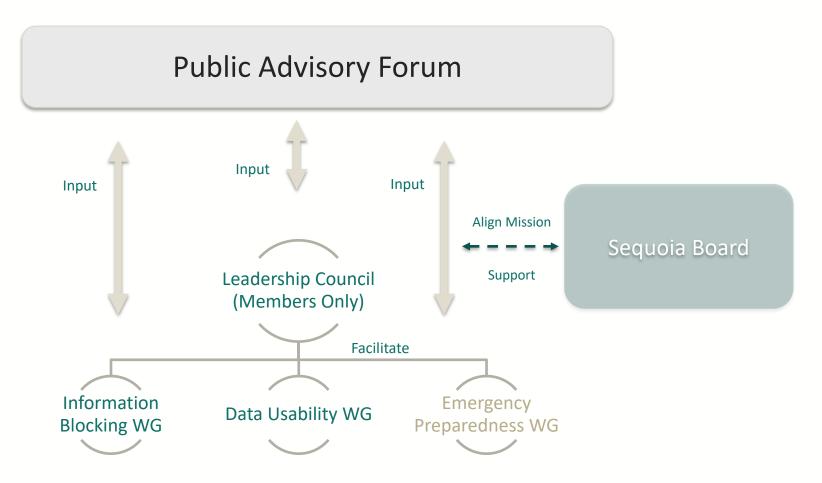

Didi Davis, VP The Sequoia Project

Joe Lamy, Spec Expert AEGIS.net, Inc.

## Interoperability Matters Structure

## Interoperability Matters Leadership Council

- Represents diverse perspectives from leaders in health IT
- Oversees Interoperability Matters public-private cooperative
- Provides strategic input to Sequoia board of directors
- Guides Sequoia's strategic priorities and informs feedback to policymakers
- Sponsors Sequoia programs to lead in solving high impact challenges
- Assures maximum transparency and stakeholder engagement
- Leads in building education and resources for public good

#### **Current Work**

- Patient Matching
- Information Blocking
- Data Usability Workgroup 2020/10/29 Launch

#### **Future Work**

- Emergency Preparedness Workgroup
- The next major challenge

# The Sequoia Project's Members

OPTUM"

# **New Sequoia Members**

- Audacious Inquiry
- Cureous Innovations
- Hawaii HIE
- Health InfoNet
- Texas eHealth Alliance

# Data Usability Workgroup Charter

## Meeting Logistics and Timeline

- Launch Schedule
  - Kickoff Call: October 29, 2020 3:00-4:00pm ET
  - Ongoing calls: Weekly, Thursday 3:00-4:00pm ET
    - https://sequoiaproject.org/interoperability-matters-2/data-usability-workgroup/
- Process & Timeframe
  - Phase 1 Administration and Prioritization
    - October 2020-March 2021
  - Phase 2: Developing Initial Drafts
    - April 2021-[TBD, based on project plan, but not to go beyond January 2022]
  - Phase 3: Public Comment Period/Recommended Next Steps
    - [TBD, based on end of Phase 2]-[60 days after start]
  - Phase 4: Finalizing Implementation Guides
    - [TBD, based on end of Phase 3]-[3 months after start]

### Purpose

- Develop specific and pragmatic implementation guides on clinical content for healthcare stakeholders to facilitate health information exchange.
- Cover identified priority use cases, that are readily adoptable by health information exchange vendors, implementers, networks, governance frameworks, and testing programs.
- Target improvements necessary to enable semantic interoperability of health information to improve the usability of data received by end users within their workflows.
- Build on existing work (e.g. C-CDA Templates, ONC, USCDI V1, joint Carequality-CommonWell Document Content Workgroup) and coordinate with related SDOs and industry initiatives

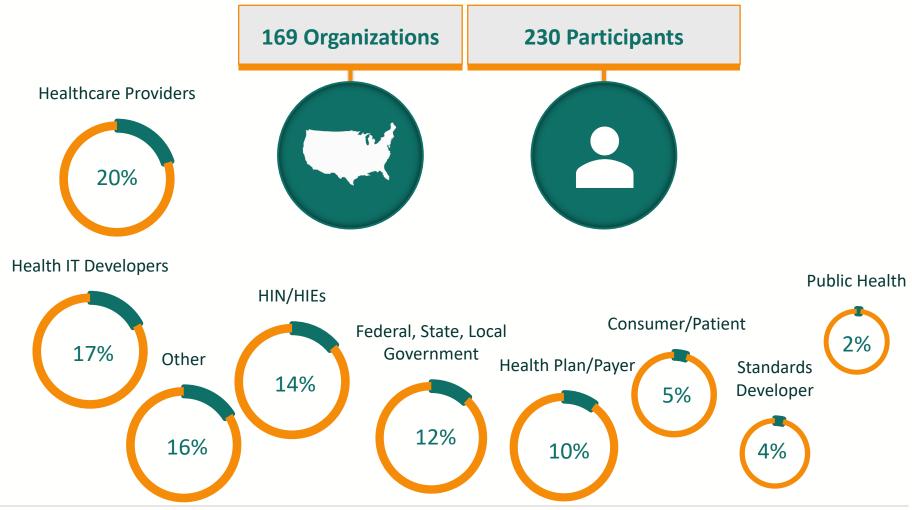

## Scope and Key Deliverables

- Develop three implementation guides focusing on data quality and addressing each of the following high-level use cases:
  - Provider-to-provider health information exchange
  - Provider-to-Public Health Agency information exchange
  - Healthcare entity-to-consumer information exchange
- Initial focus will be identifying priority elements to address in each implementation guide.
- Limit each implementation guide to a set of recommendations that is reasonable for a technology provider to address in one major software version cycle (e.g. 18 months).

# Workgroup Members

## Workgroup Member Responsibilities

- Maintain personal involvement in Workgroup meetings and related activities
- Respect the confidentiality of discussions held in the Workgroup
- Publicly support the Workgroup activities
- Represent the necessary expertise to contribute to the development of the Workgroup deliverables and enlist feedback from the constituents represented
- Accept occasional assignment of tasks between Workgroup meetings.

# Industry Led Implementation Guide Review Carequality/Commonwell Joint Document Content Workgroup

- Top level implementation guide
  - Intended to be adopted by production exchanges and put through their adoption/governance process
- Complements lower level HL7 and IHE specs
  - Can feed back into them as needed
- Guidance and requirements for C-CDA content plus SOAP web services "pull" transactions
  - Push and subscription transactions considered but not added
- Mostly provider-provider or HIE, although some attention to rendering and end-user use cases
- Focus on treatment use case
- V1.0 (2018) and V1.1 (2019): focus on encounter summaries, clinical notes, relationship of patient and encounter summaries, USCDI
- V2.0 (2020): focus on workflow, lifecycle, IHE transactions, labs, and generation of encounter and patient summaries
- All versions include "smart senders" and "resilient receivers" best practices
