

Interoperability Matters - Data Usability Workgroup

January 28, 2021

Agenda

- Welcome, Introductions, Agenda - Bill Gregg
- Workgroup Logistics – David Camitta
- Input Request from [US Core Data for Interoperability \(USCDI\)](#) Task Force – Didi Davis
- [Data Usability Workgroup Work Item Proposal Template](#) – Joe Lamy/Co-chairs
- Use Case Review [2020-2021 Priority Work Items](#) – Joe Lamy/Co-chairs
- Questions/Next Steps

David Camitta, Co-chair
CommonSpirit Health

Bill Gregg, Co-chair
HCA Healthcare

Mariann Yeager, CEO
The Sequoia Project

Didi Davis, VP
The Sequoia Project

Joe Lamy, Spec Expert
AEGIS.net, Inc.

Workgroup Members

189 Organizations

271 Participants

Healthcare Providers

Health IT Developers

Other

HIN/HIEs

Federal, State, Local
Government

Health Plan/Payer

Consumer/Patient

Standards
Developer

Public Health

Four Work Phases

The Interoperability Matters **Leadership Council** chartered the Data Usability Workgroup to work in the following phases:

PHASE 1
Administration and Prioritization
(Current)
October 2020-March 2021
[View Meeting Notes](#)

PHASE 2
Developing Initial Drafts
April 2021-TBD (not beyond January 2022)

PHASE 3
Public Comment Period/ Recommended Next Steps
TBD, based on end of Phase 2-60 days after start

PHASE 4
Finalizing Implementation Guides
[TBD, based on end of Phase 3]-[3 months after start]

The Sequoia Project's Members

The Sequoia Project's Members Continued

New Sequoia Members

- Audacious Inquiry
- CA Emergency Medical Services Association
- Cureous Innovations
- Hawaii HIE

- Health InfoNet
- CVS Health
- Mayo Clinic
- The Health and Hospital Corporation of Marion County
- ShareCare Health

Input Request from US Core Data for Interoperability (USCDI) Task Force

- Review and provide feedback on the [Draft USCDI Version 2](#) content and process. The specific changes are:
 - Was the extent and scope of the proposed change appropriate?
 - Were the right data classes and elements added in the proposed new version?
 - Are any of the proposed additional data classes, elements or standards problematic?
 - Are there additional data classes or elements that have been categorized by ONC as Level 2 or even Level 1 that you believe should be added to USCDI V2?
- Do you have any comments on the USCDI expansion process?
 - ONDEC submission system improvements
 - Evaluation criteria and process used to assign levels to submitted data classes and elements
 - Prioritization process used by ONC to select new data classes and elements for Draft USCDI Versions

While eHealth Exchange encourages all stakeholders to submit formal public comments to ONC by the April 15 cut-off date, we would be very interested in [hearing your organization's early impressions of and/or concerns](#) regarding Version 2 so they can be provided to the HITAC task force to consider in their deliberations over the next three months.

Use Case Review

- [Data Usability Workgroup Work Item Proposal Template](#)
- Links/Background
 - JDCWG [2020 Priority Work Items](#) remaining from 2.0 guide
 - [JDCWG Draft 2.0 Guide](#)
 - Homework Assignment: [new proposed work items](#), [folder](#) if you want to create discussion pages
- Readiness/clarity of existing issues
- Categorization of existing issues
- Fleshing out new issues
- Review of any new content

Thank You!
