Phase 2 Implementation Guide Development Process Discussion

- Facilitate a workshop with provider/clinicians to validate the priorities
- Co-chairs and staff will start to organize and gather the content for the 8 topic areas
  - Identify existing specs/tools that are "in the portfolio" already
  - Document other aspects to be considered for the solution
  - This will be documented in the existing Google docs for the work items
  - Agendas will be formulated in advance to enlist participation
  - Community Collaboration space to be added to the website
    - Polling and other threads to enlist member input between monthly meetings
