The HL7 POHR ballot is complete and is now published as a Functional Profile:
http://www.hl7.org/implement/standards/product_brief.cfm?product_id=630

Andrea Pitkus, PhD, MLS(ASCP)CM, FAMIAsent a chat · 3:24 PM
wonderful, Gary!

sent a chat · 3:25 PM
Do we know how USCDI v4 is interfaced with FHIR?

Hans Buitendijksent a chat · 3:27 PM
FHIR US Core is based on USCDI v4. There is no interface.

Hans Buitendijksent a chat · 3:28 PM
FHIR US Core and C-CDA are used in certification to demonstrate support of USCDI v X

Hans Buitendijksent a chat · 3:28 PM
Currently there is no validation whether HL7 v2 or other standards are conformant to USCDI v X.

sent a chat · 3:30 PM
Thank you.

Hans Buitendijksent a chat · 3:36 PM
The HTI-1 Final Rule is at OMB, so anticipated (per some crystal balls) by ONC Annual Meeting to be published.

Hans Buitendijksent a chat · 3:37 PM
Agreed with Greg that with pipelines open, data volume is increasingly faster and faster.

Gary Dickinsonsent a chat · 3:37 PM
We have submitted a USCDI request to include an Element Level GUID that will establish a substantial mechanism to reduce duplication:
https://www.healthit.gov/isa/taxonomy/term/7852/level-0

Andrea Pitkus, PhD, MLS(ASCP)CM, FAMIAsent a chat · 3:38 PM
concur with Hans and Greg to ovoid GIGO. Data/Quality is important to have accurate decisions, uses, stats, analytics, AI/ML, etc.

Andrea Pitkus, PhD, MLS(ASCP)CM, FAMIAsent a chat · 3:38 PM
avoid

Rebecca Meehansent a chat · 3:39 PM
yes

Hans Buitendijksent a chat · 3:45 PM
Can you clarify whether content review will be done off-line through the spreadsheet or other document? Or will this meeting be used to review or primarily status?

sent a chat · 3:47 PM
Maybe I missed it, but what Thursday of the month will the Lab Tiger Team meet?

Bill Greggsent a chat · 3:48 PM
Second Thursday -- next meeting is 11/9

Amber Navasent a chat · 3:48 PM
2nd Thursday of every month from 4-5pm ET

Margaret Harrisonsent a chat · 3:54 PM
Any chance that we could extend this meeting by 30 minutes to include a 'working session' to it so that we have joint input on some of the pain points?
