Interoperability Matters Steering Committee

What a year it's been!

Interoperability Matters

Launched in 2018, this Sequoia Project program engages experts from across the healthcare and healthcare IT communities to identify, prioritize, and collaborate on the most pressing, discrete challenges to nationwide health information sharing.

Interoperability Matters Steering Committee

Purpose: facilitate the Interoperability Matters cooperative for the benefit of The Sequoia Project and the interoperability community

Goal: establish program management discipline to ensure value

Kick-Off: June 13, 2024

Approach: 3 teams - Prioritization, Evaluation, Sustainability

Progress: each team has identified criteria, process, areas of overlap, and steps to operationalize Q1 2025

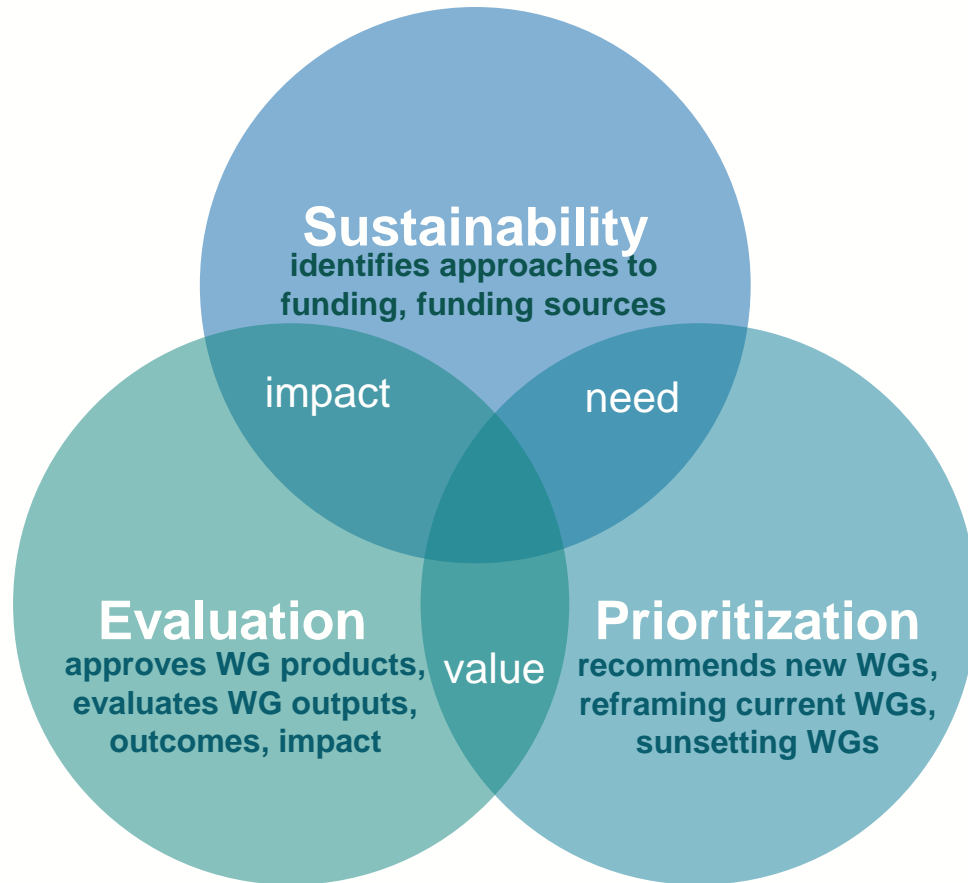

Program management discipline to ensure we are bringing value to Sequoia members.

Member dues & sponsors fund the program.
